HCCSC Policy on Serving the Chronically Homeless

The Homeless Continuum of Care of Stark County is committed to continuing to increase the total number of permanent supportive housing beds dedicated for use by the chronically homeless. In addition, it is committed to prioritizing the chronically homeless in permanent supportive housing units not dedicated to their use. Therefore, effective January 1, 2014, all recipients of CoC funds will be expected to prioritize admission for the chronically homeless in at least 85 percent of the non-dedicated permanent supportive housing units that are made available through turnover.
