I. Welcome & Introductions

At 8:37a.m., Natalie McCleskey, Coordinated Entry Committee (CEC) co-chair, called the meeting to order and welcomed everyone.

II. Approval of Minutes from October Meeting

Motion: Natalie requested a motion to approve the October Coordinated Entry Committee meeting minutes as presented. Jennifer motioned to approve. Marcie Bragg seconded the motion and the motion carried.

III. Discussion around OHMHAS-OHFA HP/RRH/ERA Project referrals

Scott presented to the group the issues the program was seeing in relation to some referrals that had very short stays in correctional institutions, some less than 12 hours. The group asked for clarification from the policy which Scott stated did not stipulate a time frame for how long they were in a correctional institution. Melissa confirmed this information. It was agreed that instead of making any policy changes we would continue to monitor this issue and if we felt it necessary to make any changes we would bring it back to this group.

IV. COC Updates

Marcie shared with the committee that there is a small group that has been working together to create policy for ESG funding. The policies will most likely be presented at next month's CE meeting.

Marcie also notified the committee that the annual ESG funding application is going to be due in the first half of January. As soon as she has an exact date she will share that information with all agencies. The committee also received an update that the COC Board currently has 3 openings. There are 8-9 candidates they are considering for those open seats. There is also an opening on the executive committee that the board will be voting on to fill as well.

V. QA Updates

Melissa updated the group that she has been in communication with the local HUD Representative, Robert, about our current VOD form. He did provide her with a sample VOD from Cincinnati and also encouraged us to simplify our form.

VI. Old / New Business

Marcie wanted to let the group know that they had contracted with an independent evaluator who was going to look at how our homeless prevention dollars are being spent. This will hopefully help build the case of why we need it in the future and how we can go about using this money more efficiently. They will also help us look at how to build capacity across our system, which would include COC, Coordinated Entry, and service providers.

VII. Adjournment

With no further business to be discussed, Natalie adjourned the meeting at 9:07 AM.
